Operation Manual for Temp & Humidify Meter

1 General Description:
This Temperature & Humidity Meter is characterized at:
Large- LCD display
Multi-function
Low power consumption
High stability & accuracy

2 Features:
Display temperature, humidity and time simultaneously
Memory of MAX & MIN measuring value
12-hour/24-hour displaying system selectable
℃/℉ unit selectable
integral-hour alarm function
Alarm function
Clock & calendar function (month and date)
Desk - top placing or wall hanging

3 Specification:
Temperature range: -50~70℃ (-58~158℉)
Humidify range: 10%~99%RH
Resolution: Temp: 0.1℃(0.1℉) / Humidity: 1%RH
Accuracy: ±1.0℃(1.8℉) / ±5% RH (40%-80%)
Power supply: 1.5V(AAA size) x 1
Product dimension: 112x110x24mm
Weight: 103g
Storage condition: -20℃~60℃, 20~80%RH

4 Operation
4-1 Open the battery cover according arrow direction, pull out the insulation paper and push back the cover, then the meter works.
